MADE IN THE

USA

Our Company

The new Journey says "from and for the visually impaired" better than any product MagniSight has ever produced. Since 1990, MagniSight has been providing solutions for the visually impaired. We have also been honored with the contract to provide video magnifiers to America's visually impaired veterans. During this time, we have come to appreciate more and more what the MagniSight product means to this very special group of people. The new Journey simply represents everything we have learned so far.

Additional Journey Features

- Customize over 25 select-a-color modes
- One touch magnification pre-sets
- One lever control brake and table stop
- Sharp auto focus color camera
- Adjustable brightness control knob
- 19" magnification, 4x to 50x
17" magnification, 4x to 45x

Our Guarantee

- Products are backed by a full 3-Year Manufacturer's Warranty

A Message From Our President

When I founded MagniSight, my goal was to manufacture equipment that would really make a difference in the lives of the visually impaired people. This is especially important to me since, at an early age, I myself was diagnosed with a juvenile form of Macular Degeneration.

Today, MagniSight continues to fulfill that goal by combining a unique understanding of low vision with the latest in technology. The new Journey is not only a fantastic product, but we hope it will make a real difference in your journey! Thank You.

Brian M. Smith,
Founder/President
